WILLIAM F. MERTZ
District 9

To Whom It May Concern:

It is with great pleasure that I write this letter in reference to my experience employing foreign teachers through VALORE INTERNATIONAL EDUCATOR EXCHANGE and especially working with their associate Gina Chiang.

We have a shortage of teachers in the United States and more so in the Southern States; therefore, after receiving a brochure on VALORE's company we (the Superintendent and I) decided for the first time in our system to check out what this company was all about.

After calling to ask a few questions, I was very impressed with Gina's professionalism and what VALORE could do for us. Therefore, we entered into this venture of hiring foreign teachers.

Gina and our IT Department set up interviews on SKYPE. This process was done and our interviews took place. All the paperwork required to bring foreign teachers to the United States was fully done for us by Gina and all we had to do was transfer the information to our letterhead. The process was simple for us and required the much needed knowledge that VALORE and Gina provided to us.

With the experience and help of Gina, we were able to hire seven teachers who are now working in our school system. Our administrators are very pleased with their job performance and enthusiasm for teaching. I believe we made a wise decision in pursuing this venture with the knowledge and expertise that Gina and VALORE provided.

I would highly recommend the assistance of VALORE should you need teachers in the future.

Sincerely,

Judy L. Collier
